I'd be glad to participate if my schedule allows. Of course we want to keep Dr. Hartung fully informed.
Noel

Jim would appreciate your response to his 12/17 email as soon as possible.

Thanks very much.

Lynn

Subject: CAAT Advisory Board

On Behalf of James Freeman:

Dear Colleagues:

Greetings to you all. By now, you should have received minutes from the November 19 meeting of the CAAT Advisory Board. This seemed to me to be a very appropriate time to convey to you how very honored I am to follow Alan as Chair, and also to kick-off a Board initiative.

Please note that I am requesting a response from you on this letter; see below.

I would like to follow-up on Mary McBride's suggestion at the November Board meeting to hold some private, board-only discussion regarding CAAT and its future directions, and use that information as input to the tentative retreat to be held sometime in 2015. CAAT is clearly in a period of change, and such discussion and input should be timely.

We propose to conduct a one-day meeting of US-based CAAT Advisory Board membership in advance of the retreat. The purpose of the meeting is to:

- provide a forum for board members to come together to candidly assess how well the CAAT program is/is not meeting sponsor needs
- discuss the current/proposed portfolio of work, follow-up on the program evaluations from the November meeting: What are the priorities?
- discuss, identify, and prioritize translational (implementation) opportunities – of the many opportunities, which ones have potential for biggest impact?
- discuss the role of the Advisory Board

Agilent Technologies has agreed to host this meeting in Washington D.C. Alternatively, I am sure we could arrange for space at Hopkins, or if travel is too constrained, we could hold a teleconference. I do not believe any travel assistance will be available for this meeting. I am trying to sort out how to host a dinner.

For now, I would like to hear back from you by Tuesday December 30, 2014 on whether you can participate and if you could attend in person, in the Baltimore/Washington area, sometime in February; please advise your preferences. Further arrangements, including a poll for a firm date, will be made early in January.

In the interim, please feel free to contact me if you have any questions or would like to discuss.

James J. Freeman
